

The effects of large-scale circulation on temperature and precipitation in the Himalayas and Tibetan Plateau

Hannah Perls, Mark Cane, and Arthur Greene

<http://www.geo.cornell.edu/grads/duncan/topo/topo.gif>

CRU temp and precip anomalies (1950-1999) correlated seasonally with large-scale circulation anomalies:

1. North Atlantic Oscillation
2. Atlantic Multidecadal Oscillation
3. Indian Ocean Dipole
4. NINO34
5. Southern Annular Mode
