

Carbon Sequestration in the Millennium Villages: Potential Models to Follow

Eliza McGovern

Advisor: Sean Smukler

- Sequestering carbon to fight global poverty
 - Tree planting, agroforestry, improved agricultural practices and avoided deforestation and degradation
 - Environmental and socioeconomic benefits
 - The role of carbon credits
 - Improved income
 - Fewer investment barriers
- Existing projects and how they've fared
 - Carbon sequestered and sold
 - Positive community impact
 - Improved ecological conditions
- Ideas for the Millennium Villages
 - Two very successful projects and how they've succeeded
